Prescient Management Company and the Trustee are registered and approved under the Collective Investment Schemes Control Act (No.45 of 2002). Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value of financial products can increase as well as decrease over time depending on the value of the underlying securities and market conditions and past performance is not necessarily a guide to future performance (no guarantee is provided as to the values of any financial product mentioned in this document). The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. In the event that specific collective investment schemes in securities (unit trusts) are mentioned please refer to the relevant Minimum Disclosure Document in order to obtain all the necessary information in regard to that unit trust.

The Manager retains full legal responsibility for any third-party named portfolio (Paragraph 6(1)(g) of BN92).
